

Southern Southeast Regional Aquaculture Association, Inc. (SSRAA)

14 Borch Street
Ketchikan, AK 99901
907-225-9605
www.ssraa.org

The Southern Southeast Regional Aquaculture Association (SSRAA) has an opening for a **seasonal fisheries research technician** based in **Petersburg, Alaska**, with travel to other southeast Alaska communities, including Ketchikan, AK.

This position will focus on the collection of biological data from Chinook, coho, and chum salmon at the local fish processing plants and assisting with the coded wire tagging process with an Autofish trailer at two SSRAA hatcheries. Tasks involved include but are not limited to the extraction of otoliths, the collection of sex and weight samples, accurately recording data for individual sample sets, following appropriate lab protocol for processing otoliths, and fin clipping juvenile Chinook and coho salmon.

Applicants must be at least 18 years of age and have a valid driver's license and reliable transportation. The ideal candidate would be self-motivated, interested in fisheries, detail oriented, have good communication skills, be proficient in salmon identification, willing to work in inclement conditions, and must be able to lift 50 pounds. Experience working in fisheries is preferred, but not necessary.

This position will run from approximately June 22nd to October 23rd. Starting pay is \$19.90/hr *or greater* DOE. This position is full-time and requires a flexible schedule, with evening, weekend, and on-call work required. Housing in Petersburg may be provided if necessary. This position also has the potential to fulfill a university internship requirement. SSRAA is an equal opportunity employer.

Applicants may direct questions to Stephanie Warnement at stephw@ssraa.org.
